BİZİ TANIMANIZI İSTERİZ

Genel olarak Temelson'un sunduğu hizmetler yüzey araştırması ile başlar. Yüzey jeoloji çalışmalarını kum, çakıl, kil ve kaya zeminde açılan, değişik amaçlar için değişik yöntemlerin uygulandığı araştırma sondajları izler.

Jeolojik formasyonların araştırılması için açılan sondaj kuyuları yardımı ile temel inşasına uygun olacak şekilde zemin iyileştirilmesi gerçekleştirilir.

Zeminin genellikle geçirimsizlik ve dayanıklılık sorunu sunduğu baraj yeri ve göl alanlarında enjeksiyon uygulaması hemen her zaman zorunlu olduğundan delgi işlemlerinin yanı sıra enjeksiyon uygulaması da ana uğraşlarımızdan birisidir.

Temelson'un sunduğu diğer hizmetler arasında jeofizik etüdler, doğal yapı gereği araştırılmaları, zemin ve kaya mekaniği laboratuvar ve arazi deneyleri, baraj ve tünel gibi yapılara ölçüm aletleri yerleştirilmesi ve değerlendirilmesi, kontrollü patlatma ile açık ve tünel kazıları, püskürtme betonu uygulaması ve şev stabilitesi sayılabilir.

WE WANT YOU TO GET TO KNOW US

In general the services offered by Temelson start with a site investigation. Exploratory boring both in sand, gravel and clay strata as well as in rock follows the surface geological studies. Various boring processes are used to handle different applications. We bore down to great depths to investigate geological formations and we also improve loose or soft strata to facilitate foundation construction.

Besides drilling one of our main concern is grouting, since it is nearly always necessary to apply grouting techniques to the big projects mainly the construction of reservoirs and dams where the ground is usually permeable and unstable.

Other services we can offer includes geophysical investigations, construction material investigations, field and laboratory test for soil and rock, instrumentation in dams and tunnels, open and underground rock excavation by cautious blasting, shotcreting and slope stability.

**INFORMATION ABOUT
TEMELSON GEOTECHNICAL SERVICES CO. LTD.**

- Name of The Company :

TEMELSON Geotechnical Services Co. Ltd.

- Main Office :

Üsküp Cad. No: 16/16, 06680 Çankaya-ANKARA

- Workshop and Warehouse :

Demirciler Sitesi, Karacaören Mevki 5. Cad. No:23 Pursaklar-ANKARA

- Phone :

MACHINERY AND EQUIPMENT

TEMELSON GEOTECHNICAL SERVICES CO. LTD.
MACHINERY AND EQUIPMENT

DESCRIPTION	QUANTITY	CAPACITY
AUTOMOBILE	2	4 person
PICK-UP 4X4	1	4 person
LORRY	1	3,5 Ton
LORRY MOUNTED B-53 DRILL RIG AND TRIPLEX PUMP	1	400m 120 lt/min
LORRY MOUNTED DRILL RIG AND TRIPLEX PUMP	3	300m 80 lt/min
SLIDE MOUNTED DRILL RIG	1	300m
TRACTOR MOUNTED DRILL RIG AND TRIPLEX PUMP	1	70Hp - 300m 80 lt/min
MENARD PRESSUREMETER	1	-
PUMP WITH TRANSMISSION	1	130 lt/min
PUMP WITH TRANSMISSION	2	80 lt/min
PUMP WITH BELT	3	80 lt/min
CENTRIFUGAL PUMP	1	140 lt/min
OFF SHORE DRILLING RAFT	1	7m x 7m
TRACTOR	1	50 Hp
TRAILER	1	2 Ton
TRAILER TYPE WATER TANK	1	2 Ton
RESISTIVITY DEVICE	1	-
SELF POTENTIAL MEASURING EQUIPMENTS	1	-
